

## **Ferrari World Abu Dhabi**

### **Architectural Overview**

Sitting beneath its iconic red roof in the heart of Yas Island, is the world's first Ferrari theme park and largest attraction of its kind. It will be an intense multi-sensory experience and a must-visit for enthusiasts, fans and families. The Park pays tribute to the passion, excellence, performance, and technical innovation that Ferrari has established over the years and represents today. To house this state of the art leisure attraction, world renowned architectural firm Benoy have created a building to reflect the sinuous form of a Ferrari, directly inspired by the classic double curve side profile of the Ferrari GT body.

Due to the shape of the island and the position of Ferrari World Abu Dhabi in close proximity to the airport, the building was conceived as a very simple 'ground hugging' form, peeling up from the landscape in flowing lines like a red sand dune. The visually distinctive form and shape crowns the Yas Marina Circuit and due to its location, the sleek shape and beauty of the building will be experienced by anyone driving past or flying over the Island. The building is a true architectural expression of the values of the Ferrari brand itself.

#### **Key facts**

- The enclosed volume of air of the upper plaza level is over 3,000,000 cubic metres
- The gross foot print of the plaza level is 86,000 sqm
- The total accommodation of all 3 levels is 176,000 sqm
- The building stands 50m high above sea level, with the central shot ride at a staggering 62.5m high, the highest permissible structure on the flight path to the airport
- The roof structure is over 700 metres in diameter
- The total roof area is 200,000 sqm
- The Ferrari logo on the roof measures an incredible 65 meters in length and covers an area of 3,000 sqm; the biggest Ferrari logo ever created
- The plot the Ferrari World Abu Dhabi building sits on is over 700,000 sqm

- The expansive 48 metre high roof is punctuated by a vast glazed crystal-like funnel measuring 100 metres in diameter at the top, pulling down to just 17 metres diameter at its base
- The central funnel roof is supported on 12 primary columns which form a 12-point Arabic star pattern that is used to describe the primary geometry of the overall roof space and extends out to meet the primary raked shield façade

#### **About Ferrari World Abu Dhabi:**

Ferrari World Abu Dhabi will be the world's largest indoor and first Ferrari theme park. It will be an intense multi-sensory experience and a must-visit for enthusiasts, fans and families. With more than 20 unique rides and attractions, including the world's fastest rollercoaster, Ferrari World Abu Dhabi will be a celebration of Ferrari's past, present and future. Ferrari World Abu Dhabi is set to be one of the signature features of Yas Island, a 2,500 hectare island dedicated to leisure, entertainment and lifestyle.

Ferrari World Abu Dhabi is a world-class development by Aldar Properties PJSC, Abu Dhabi's leading property development, management and investment company and will be managed by Farah Leisure Parks Management LLC, a joint venture between Aldar Properties PJSC and ProFun Management Group Inc., an international leisure facilities management and operating company.
