THE BMW X5.

JOY MAKES MORE OF LESS.

The first generation BMW X5 successfully created the Sports Activity Vehicle category. The latest BMW X5 builds on that success, raising the bar with class-leading efficiency. A range of EfficientDynamics technologies minimise fuel consumption and CO₂ emissions. But all this efficiency is not at the sacrifice of driving pleasure – whether you choose one of the two diesel models or the petrol model, the BMW X5's improved engines and standard Eight-speed automatic transmission maximise power and performance.

BMW EFFICIENT DYNAMICS.

EfficientDynamics is BMW's award-winning programme of technologies designed to reduce CO₂ emissions and improve fuel economy, without compromising on performance or driving dynamics. These technologies are standard on every new BMW and could lower your fuel and tax costs, as well as ensure a lower benefit-in-kind tax rating for company car drivers. You can find out more about the benefits of BMW EfficientDynamics, as well as compare your own vehicle against any BMW X5 model at www.bmw.co.uk/efficientdynamics.

A GUIDE TO TRIM LEVELS.

The BMW X5 is available in a variety of trim levels, each providing a different level of standard specification. The below table highlights some of the equipment differences between the trim levels, whilst full details can be found in the BMW X5 model brochure.

Trim level	Standard equipment highlights	On the road price
