

**Pressemitteilung Cor.Speed Sports Wheels:
VW Beetle Cabriolet with Cor.Speed Vegas Wheels**

While Volkswagen recently discontinued the hardtop Beetle, the much better selling convertible version lives on. This is the perfect fashion statement car to show off the evergreen five double-spoke Cor.speed Vegas alloy wheels finished in a contrasting Highgloss-Black and stainless steel outer rim finish.

The Beetle's big wheel arches need big wheels to fill them, and these Cor.speed Vegas wheels, in 8.5Jx19-inch (373 euro) size, shod with 235/35ZR19 tyres, do the job nicely. This combination comes with TUV certification for direct entry into the vehicle papers where required. The Cor.Speed Vegas wheel is also available in the following sizes with 5x112 mm PCD: 8.0Jx18, 9.0Jx18, 9.5Jx19, 8.5Jx20 and 10.0Jx20 inches.

To give the car a more purposeful look and enhance its driving dynamics, the KW Variant 3 fully adjustable coilover suspension kit (1,799 euro) fitted to the Beetle in the photos was set up with a ride height 45 mm (front), and 40 mm (rear) respectively lower than standard.

JMS Fahrzeugteile, who are responsible for the distribution of Cor.Speed and Barracuda rims in Europe, also offer a range of tuning components such as power upgrades and exhaust systems for the VW Beetle.

Visitors of the Essen Motor Show (02.-10.12.2017) will find the entire wheel program of Cor.Speed Sports Wheels and Barracuda Racing Wheels in Hall 11 at Stand D112.

More information on the entire Cor.Speed Sports Wheels programme is available from:
