

## **PRESS RELEASE JMS Fahrzeugteile, Opening of the new headquarter**

From now on in Neckartenzlingen: new JMS showroom with a large exhibition

The company JMS Fahrzeugteile can not only look back on a 29-year long tradition-rich success story, but has also always been based at its original location in Walddorfhäslach for almost three decades. Now, however, the experienced tuning specialists have taken the next step and moved to a completely new company headquarters at the beginning of November: The team is now looking forward to welcoming its customers to its newly opened location in Neckartenzlingen.

A great showroom in an exclusive ambience extends over an area of around 110 square meters at Schulstrasse 28. There is plenty of space here for competent customer advice and support from four specialist advisors, be it on site or by phone and email, as well as for an extensive exhibition with around 100 wheels and many other tuning components. The focus is of course on the wheels from Barracuda Racing Wheels and Cor.Speed Sports Wheels, which JMS sells exclusively. In addition, there are rims from numerous well-known manufacturers such as OZ Racing, Oxigin, Sparco, Fondmetal, MSW, Schmidt, R-Style, TEC Speedwheels, Tomason, Work, Kerscher, Hamann, ABT Sportsline, Borbet and mbDESIGN.

The range also includes JMS's own body kits, chassis technology from KW, H&R, Bilstein, Eibach and ST Suspensions, as well as exhaust systems from Eisenmann, Capristo, Remus, FOX, Friedrich Motorsport and Co. Body kits, intercoolers, brake technology, loading sill protectors and much more can also be found at JMS. Extensive complete conversions are possible on request, whereby the parts can also be installed on site or at one of the numerous partners in the large dealer network - including registration, whereby even special approvals are not a problem.

By the way: A visit to the new location is worthwhile! Until December 31, 2021, JMS grants exclusive discounts for all visitors who purchase products on site. Special prices also apply for the installation of components until the end of the year. And last but not least, every visitor receives a small gift as a little treat.

The move will not affect the logistics, which will continue to be carried out from the central warehouse in Walddorfhäslach, as well as the shipping of the Barracuda and Cor.Speed wheels from the company's warehouse in Reutlingen.

There are more than 50 breathtaking videos on JMS Fahrzeugteile's YouTube channel - it's worth clicking and subscribing! Always up-to-date pictures and videos are also available on JMS 'Facebook, Instagram and Tik Tok channels.
