

## **PRESS RELEASE JMS Fahrzeugteile, BMW 3 Series duo F30 and G20**

BMW 3 Series duo from Croatia: F30 and G20 on Cor.Speed DeVille and Barracuda Karizzma

The 3 Series has been one of the most tuned series from BMW for many decades. To this day, the older generations E30 to E9x are particularly popular with BMW fans and are therefore particularly often modified according to personal taste. But numerous owners of the newer models also give their sweetheart an individual touch. This is demonstrated, for example, by the cars shown here. The JMS partner company Formula from Matulji near Rijeka equipped the sedans of the current G20 series as well as the predecessor F30 each with a set of high-quality alloy wheels.

The white G20 is on the long-running Karizzma from Barracuda Racing Wheels in a matt black "PureSports" finish. While the Y-spoke wheels have the dimensions 8.5x19 inches all around, they are covered with 225 tires at the front and 255 tires at the rear. The situation is very similar with the blue vehicle, which is a few years older. The Michelin 225/35R20 and 255/30R20 tires used here are mounted on 9x20 inch DeVille rims from the Barracuda sister brand Cor.Speed Sports Wheels, both front and rear. The wheels, which have ten powerful and straight-lined spokes, have a gunmetal finish.

Of course, the reduction in ground clearance should not be missing at this point. Here as there, the body is 35 millimeters closer to the asphalt. This is thanks to special springs from H&R in the G20, while Eibach springs are installed in the F30.

By the way: There are more than 400 breathtaking videos on JMS Fahrzeugteile's YouTube channel - it's worth clicking and subscribing! All other facts as well as price and delivery information on the entire JMS program are available from:
