

Press release Barracuda Racing Wheels Europe Barracuda meets time2drive: Pink Project 2.0 wheels on the Tesla Model 3

Many car fans are still skeptical about electric mobility. Nevertheless, it is undeniable that this is becoming more and more established. Tesla in particular is increasingly celebrating impressive sales successes. With almost 750,000 units sold in 2022, the Model Y was the third best-selling car. And the sister model, Model 3, is also very popular. The American electric cars are also finding their way into the tuning scene with increasing frequency. This is underlined, for example, by this example equipped with high-quality Barracuda Racing Wheels.

The conversion was created in cooperation with the owner of the Tesla, the well-known YouTuber time2drive (Instagram: t1reburner). He chose Project 2.0 rims from Barracuda's Ultralight Series for his Model 3. Thanks to their production using the Flow Forged process, these are extremely light and are characterized by a classic ten-spoke design. But they are still real eye-catchers, thanks to their finish: they were given a special paint finish in bright pink! The dimensions are 9x20 and 10.5x20 inches, the corresponding tires measure 235/35ZR20 at the front and 275/30ZR20 at the rear.

The perfect alignment of the wheels under the fenders is due to the additional lowering by 45 millimeters at the front and 40 millimeters at the rear using a KW Variant 3 coilover kit. Last but not least, the Model 3 has several body attachments that underline the light-dark contrast and make the Stromer appear even more dynamic: a front spoiler lip, attachments for the front apron, side skirt attachments and a distinctive diffuser as well as a rear spoiler lip.

Stunning videos of Barracuda are available on the Barracuda Racing Wheels YouTube channel or interactively on the barracuda.wheels Instagram profile. The alloy wheels are available from the extensive Barracuda wheel range in car dealerships or well-stocked tire and specialist shops. Alternatively, they are available, along with all other facts, as well as price and delivery information, directly from:
