

Press release Barracuda Racing Wheels Europe
Barracuda meets MB Custom: Classic limousine 190 E on Karizzma wheels

It has long been one of the absolute classics and long-running favorites in the range of Barracuda Racing Wheels, a brand known for high-quality alloy wheels: the Karizzma. With its characteristic Y-spoke design and several available finish options, it has already helped countless tuning vehicles to shine. And it doesn't matter whether it's a brand new vehicle or one that's decades old. This Mercedes-Benz 190 E, for example, proves that the Karizzma suits young and old-timers alike.

After all, in view of the construction period from December 1982 to August 1993, almost all specimens now qualify for the H (historic) license plate. The 190 E presented here also has one of these, which the specialists from MB Custom from Heddesheim put on its new wheels with material from Barracuda Racing Wheels and JMS vehicle parts.

The Karizzmas in 7.5x17 inches were chosen for mounting under the fenders of the sedan. The bright "Racing White" finish contrasts strongly with the gray paintwork on the body and thus guarantees a particularly high eye-catcher factor. The motorsport-inspired wheels are all-round shod with 215/40R17 Hankook tyres.

A performance kit sports suspension from JMS Fahrzeugteile also reduces the ground clearance by 45 millimeters at the front and 35 millimeters at the rear.

Stunning videos of Barracuda are available on the Barracuda Racing Wheels YouTube channel or interactively on the barracuda.wheels Instagram profile. The alloy wheels are available from the extensive Barracuda wheel range in car dealerships or well-stocked tire and specialist shops. Alternatively, they are available, along with all other facts, as well as price and delivery information, directly from:
