

## **PRESS RELEASE JMS Fahrzeugteile, Barracuda 19 inch-wheels on the Ford Hot Hatch**

The absolute spearhead of the first three generations of the Ford Focus was the RS, which is a relatively exclusive hot hatch, not least due to its limitation and a relatively short construction period of only one or, most recently, two years. The whole matter becomes even more individual and unique, of course, with a subsequent refinement - as was done with this copy of the second RS generation by the specialists from JMS Fahrzeugteile from Walddorfhäslach.

The more than 300 hp compact sports car rolls on a set of Karizzma wheels from the Barracuda Racing Wheels brand, which is sold by JMS. The dimensions are 9.5x19 inches and the associated tires measure 235/35R19. With their special finish in Ice Gray, they stand out from the bright green paintwork of the body, which is typical of the RS. JMS brought about a suitable lowering by 45 millimeters at the front and 40 millimeters at the rear with the help of an ST X coilover kit.

Acoustically too, the powerful Focus is even more striking, because the 2.5-liter in-line five-cylinder turbo engine is now connected to a Racelook 3-inch sports exhaust system from the catalytic converter manufactured by Friedrich Motorsport. Last but not least, Recaro sports seats enhance the interior.

The high-quality JMS products are available from car dealerships, well-stocked specialist shops or directly from JMS Fahrzeugteile ([www.jms-fahrzeugteile.de](http://www.jms-fahrzeugteile.de)). All other facts as well as price and delivery information on the entire JMS vehicle parts program are available from:
