

**PRESS RELEASE JMS Fahrzeugteile, A special, refined anniversary model:
Lowered Golf GTI with Ultralight Project 3.0 at the Essen Motor Show**

The VW Golf is not only the compact class car par excellence, but the GTI sports model is also virtually the originator of the hot hatches. And more than 40 years after launching its 110 hp-strong first generation, the GTI is still one of the stars of its kind, with VW regularly presenting special versions of it alongside the regular models. For example, from summer 2011 to autumn 2012 there was the 35 Edition model to tie in with its 35th anniversary. And one model from this special edition has now been extensively refined by JMS Fahrzeugteile.

With its striking orange paintwork, visitors at the Essen Motor Show 2019 from November 29 through December 8 will be able to admire the eye-catching vehicle of Instagram influencer bagged_ED35, on display at the JMS/Barracuda Racing Wheels stand 7D23 in Hall 7 and presented by Sabrina Doberstein in her role as ambassador for the Barracuda brand.

A set of Barracuda Racing Wheels and 8.5x20" ET43 Ultralight Project 3.0 rims are mounted on the Golf's axles. Their milled side spoke contours in a glowing orange color accent fit perfectly to the body and provide a stark contrast to their otherwise black milled finish. The tires measure 225/30R20.

∪

In addition, JMS installed a diffuser attachment at the rear, while the front spoiler lip and its supports on the modified front bumper were undertaken by the owner of the vehicle. Another feature that firmly underpins the GTI's refinement and its wheels in particular is the lowering of the vehicle's body, which is all down to a height-adjustable air suspension system.

On the inside, JMS installed a Wiechers club sport roll bar for a sporty appearance, and the extensive Gladen hi-fi not only guarantees a perfect sound system, but also looks incredible. A big thank you to photographer Jonathan Goerke for the images!

Alongside the Golf GTI and other show cars, the high-quality brands Barracuda Racing Wheels and Cor.Speed Sports Wheels will both be celebrating a new highlight in the world of rims: the Barracuda Project X and the Cor-Speed Kharma rims. A cordial invitation is extended to interested media representatives to witness the grand unveiling on the first day of the fair on November 29, 2019, where groundbreaking and unique designs await you...
