Süssen, June 23, 2008

## 10 Years SUESSEN EliTe® Compact Spinning

Here again is a real **milestone** in the long history of SUESSEN's successful contributions to the world of spinning technology:

In 1998, just ten years ago, SUESSEN delivered the first EliTe® Compact Spinning Systems to the Austrian customer Linz Textil. Thanks to him, and thanks to all of the many other customers, SUESSEN is now the leader in compact spinning technology with **more than 2,800,000 EliTe® and EliTwist® Spinning Positions** running in the world.

### Other milestones in the history of EliTe® Compact Spinning:

- 09/2005 – 1,000,000<sup>th</sup> EliTe® Compact Spindle
- 04/2006 – 1,500,000<sup>th</sup> EliTe® Compact Spindle
- 03/2007 – 2,000,000<sup>th</sup> EliTe® Compact
- 09/2007 – 1,000,000<sup>th</sup> EliTe® Compact Spindle into the Indian market

All these milestones give good reason to be celebrated and memorized in that precise moment, but much more they are reasons to strive even harder to continue to earn the trust of the customers!

During **ITMA Asia + CITME 2008 in Shanghai, China**, SUESSEN will present the new **EliTe® CompactSet V5** with the optional applications **EliTwist®** and the new core yarn attachment **COREflex® (= EliCoreTwist®)** on a Chinese ring spinning machine, processing 100% cotton into a two-ply core yarn with the yarn count Ne 100 at a spindle speed of 20,000 rpm.

We will be happy to welcome you on our stand in **Hall W4, Booth D 02-06**.
