“Opel 2020” Bonus Packs for Opel Combo, Vivaro and Movano

- Best connections: top-of-the-line infotainment and OpelConnect service
- Assistance systems: park pilot, blind zone alert and many more
- Practical money-savers: equipment packs cost less than individual options

Rüsselsheim. Light commercial vehicle (LCV) drivers are keeping their eyes on Opel in 2020. In a few months, the Opel Vivaro will come onto the market for the first time as the battery-electric [Vivaro-e](#), with a 50 or 75 kWh battery for differing needs. Customers can already benefit from the “Opel 2020” **bonus packs**, which are orderable for the Edition versions of the [Combo Life](#), [Combo Cargo](#) and [Vivaro Cargo](#), as well as for the [Movano Cargo](#). Depending on the model, the “Opel 2020” packs comprise various features that further enhance comfort and safety. Customers benefit from practical packs matching their particular vehicle and also save money in comparison to individual options.

Opel Combo Life and Combo Cargo: Multimedia Navi Pro, OpelConnect and more

Customers who want to customize their Combo Life choose the “Opel 2020” Design Pack. For €600 (RRP incl. VAT in Germany), the Combo Life then comes up with 16-inch light-alloy wheels and mirror housings in high-gloss black, while the interior is fitted with velour floor mats.

The “Opel 2020” INNOVATIONS Pack for the Combo Life and Combo Cargo features the Apple CarPlay and Android Auto-compatible Multimedia Navi Pro infotainment system and the new OpelConnect service. Both Combo variants also get equipment such as blind zone warning and park pilot front and rear. With the Combo Life, the price of €1,900 (RRP incl. VAT in Germany, only in combination with Design Pack) also includes rain sensor, automatically dimming interior rear view mirror and main beam assist, plus Solar Protect glass, electric windows and tailgate with opening window. For an additional €900, the

Combo Life with the INNOVATIONS Plus Pack also has LED daytime running lights, a head-up display and dual-zone automatic climate control.

The “Opel 2020” INNOVATIONS Pack tailored to the Combo Cargo commercial vehicle (€2,100 excl. VAT in Germany, also all following prices) features a double passenger seat and an electric parking brake. For a total price of €3,000, the INNOVATIONS Plus Pack for the compact van additionally offers a comprehensive safety package including a front collision warning system including automatic emergency braking and pedestrian detection, lane departure warning, traffic sign recognition and drowsiness detection. Customers save around €1,200 compared to individual options.

Opel Vivaro and Movano: multifunction bench seat, top connectivity, assistants

The “Opel 2020” INNOVATION Packs also provide benefits for the Vivaro Cargo Edition (€1,500) and Movano Cargo (€1,600), such as a multifunction double-passenger bench seat. In the Vivaro, this has the FlexCargo function, a fold-up outer seat and a DIN A4 desk. Movano drivers always have a tidy mobile office with the swivelling laptop shelf on the backrest, integrated storage compartments under the seat and the pull-out FlexTray glove box. On the passenger side there are drink holders and a tray as well. State-of-the-art infotainment and connectivity is also included: on the Vivaro with the Multimedia Navi Pro and on the Movano with the Navi 50 IntelliLink Pro. Park pilot the front and rear helps when manoeuvring, while the Movano’s pack also features blind zone warning.

Additional electronic assistance comes with the INNOVATIONS Plus Pack (Vivaro: €1,800; Movano: €2,000). Depending on the model, safety is further enhanced by systems such as light and rain sensors, high beam and lane keep assist, traffic sign recognition with intelligent speed warning and drowsiness alert.

About Opel

Opel is one of the largest European car manufacturers and was founded by Adam Opel in Rüsselsheim, Germany, in 1862. The company started building automobiles in 1899. Opel has been part of the [Groupe PSA](#) since August 2017. Together with its British sister brand Vauxhall, the company is represented in more than 60 countries around the globe selling around one million vehicles in 2019. Opel is currently implementing its electrification strategy to secure sustainable success and ensure that the future mobility demands of customers are met. By 2024, all Opel

models will offer an electric variant. This strategy is part of the company plan [PACE!](#) with which Opel will become sustainably profitable, global and electric.
