

Ketterer EXCLUSIVE DOUBLE POP OUT

True luxury of design and function

Just in time for our 20th anniversary year, our EXCLUSIVE DOUBLE POP OUT with elegant living and stalled to carry five horses has been released.

This extraordinary new model with all of the popular features our owners expect impresses from the outset. The Ketterer trademark window strip and perfect design emphasize it's totally smooth sided finish.

The horse area has been finished purely for the benefit and comfort of the animals with a multi-zone climate control system that ensures stress-free travel. The exciting new concept of storage space allows a choice of 6 mobile units for saddlery, feed and equipment.

The living area extends by two impressive 2.50m x up to 1.20m POP OUTs to become a spacious contemporary room for entertaining with elegant lighting.

The generous seating area, dining room and kitchen along with a huge bathroom make the interior of the new KETTERER EXCLUSIVE DOUBLE POP OUT a must for any discerning owner or rider.

With two separate sleeping areas, one with a POP UP roof and large wardrobes, this horse transporter allows six people plentiful accommodation for a long trip away. The true innovation of luxury, design and function.
